

CONSULTATION ON THE REOPENING OF LIMITED FACE-TO-FACE CLASSES

Dear Parents,

Greetings!

Learning is a multifaceted journey that requires dedication and actual classroom experiences under the supervision of faculty members.

Due to COVID-19 pandemic, most educational institutions have shifted from the traditional face-to-face teaching modality to either Online or Flexible Learning. However, the Southern Philippines College, Cagayan de Oro City realizes the advantages of maintaining classroom teaching intends to offer limited face-to-face classes. The following benefits are offered, among others.

- Helps boost students’ motivation
- Enhances critical thinking and social skills
- Builds organizational skills
- Adopts modified teaching to address students’ needs
- Develops more confidence through sharing of ideas and experiences

In response to government’s mandate to gradually allow HEIs to re-open all degree programs for Limited Face-to-Face, we would like to solicit your opinion if you are amenable for the adoption of such an arrangement for our students with strict observance of health and safety protocol standards.

Furthermore, employees who are over sixty-five (65) years of age, with immunodeficiency, comorbidity or other health risks and pregnant women may report to the school at their own risk.

In view of the foregoing, kindly return the reply slip for your response.

Thank you.

Very truly yours,

Fe S. Tolibas Ph.D.
Academic Director

----- **REPLY SLIP** -----

This is to acknowledge receipt of your survey on the Reopening of Limited Face-To-Face classes.
In view hereof, my response is:

- ☒ Yes, I am amenable for the limited face-to-face classes
- ☐ No, I am not amenable
